- 2) In case of the conflict of interpretation between the Korean and English versions, the Korean version prevails always.
- 3) Some technical requirements in the list may refer to TTA (Telecommunications Technology Association) standards, and those standards are available at the website (http://www.tta.or.kr).
- * Testing labs may use other testing methods that are internationally accepted than those ones included in the Conformity Assessment Procedures. In this case, the testing methods should be informed to National Radio Research Agency, Republic of Korea.
- ** For standards with future implementation dates, applications for designation can be submitted to NIST five months prior to the effective date noted. In some cases, NIST may hold the designation until such time that Korea confirms that the standard can be included on a CAB's list of recognized standards.
